

I am a listener of KLOVE 94.3 in Chicago, IL. I thoroughly enjoy listening to KLOVE and see many others who listen to the same station through my personal friendships and by seeing bumper stickers on other cars. If this station were replaced by a LPFM, I would lose my favorite station. If the station was gone, I think a positive public station would be lost when many stations are being fined for indecent comments and content. I think that KLOVE serves the public interest by being a positive influence instead of a negative one.

Thank you for considering my opinion. I hope that the KLOVE FM translator stations will remain.
